2018 Caring Committee Annual Report

Pastoral care offers opportunities to support others in need. The Caring team is charged with providing pastoral care to members and friends in need of care and comfort. This past year we have hosted two memorial receptions, provided numerous meals to people recovering from illness or surgery, sent cards and notes and visited the ill and elderly at home and in health care facilities. We have provided transportation to doctor appointments and to church. Our team has also made generous personal donations to help with some extraordinary financial needs. We have broad support from our church community and our membership is too numerous to list.

Respectfully submitted,
June Bruns
